

Fantasea EyeDaptor G Series-F67 (Cat. No. 4701)

Instruction Manual

The **EyeDaptor G Series-F67** enables mounting accessory lenses and filters with a 67mm thread mount on the Canon G11, G10, G9* and G7* housings (WP-DC34, WP-DC28, WP-DC21 and WP-DC11 respectively).

* Additional adaptor required for the Canon G9 and G7 housings: **EyeDaptor G9-G10** (Cat. No. 4703). Please refer to the **EyeDaptor G9-G10** instruction manual for further information.

Mounting a Lens Accessory with a 67mm Thread Mount on the Canon G11/G10 Housings

1. Please use the utmost care and do not use excessive force when assembling and disassembling the different lens accessories, in order not to cause any damage to the products.
2. Attach the secure line to the adaptor and the housing, in order to secure the lens and adaptor to the housing.
3. Install the **EyeDaptor G Series-F67** by attaching it to the housing lens port. First hold it in your hand so the threaded side of the adaptor is facing away from the camera housing and the adaptor is aligned with the housing lens port (image A). Next, Place the adaptor over the housing lens port and follow by securing the two adaptor lanyards to the two corresponding housing secure line loops (image B). **Please note that the lanyards are essential in order to keep the adaptor in place.**

5. After the dive, detach the accessory lens and adaptor from the housing lens port and rinse all lens components in fresh water. In order to remove the adaptor from the housing lens port, start by detaching the adaptor lanyards from the housing and follow by removing the adaptor from the lens port.
6. Dry and store in a safe protected place.
